National Institute of Technology, Raipur

MCA student at NIT Raipur with strong software engineering fundamentals and experience in developing scalable backend systems, REST APIs, and AI-enabled applications. Passionate about open source and production-ready software.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
MCA	National Institute of Technology, Raipur	CGPA: 8.33 / 10	2024 – Present
BCA	Sarojini Naidu Govt. Girls PG College, Bhopal	CGPA: 7.72 / 10	2021 – 2024
Senior Secondary	Rose Mary Higher Secondary School	90%	2021
Secondary	Rose Mary Higher Secondary School	87%	2019

EXPERIENCE

- Software Engineer Intern | ShopCardd**
Node.js, TypeScript, FastAPI, MongoDB, Redis, RabbitMQ, Docker May 2026 – Jul 2026
 - Built the **Brand Module** across microservices with REST APIs, CRUD operations, RabbitMQ event messaging, and 41+ unit tests.
 - Developed the AI Gateway (AIGW-CORE) integrating AI workflows with backend services using production REST APIs, JWT authentication, Redis, WebSockets, audit logging, and rate limiting.
 - Collaborated using Git, code reviews, API testing, debugging, documentation, and production deployment workflows.

PROJECTS

- Network Intrusion Detection System**
Tech: Python, Pandas, NumPy, Scikit-learn
 - Developed a machine learning-based Network Intrusion Detection System to classify network traffic and detect malicious activities.
 - Performed data preprocessing, feature engineering, and model training using Scikit-learn to improve detection accuracy.
- W-Saksham — Alert & Monitoring System**
Tech: Python, Firebase, Google Maps API
 - Integrated Google Maps API to enable location-based alert tracking and visualization for emergency response.
 - Designed scalable backend workflows to ensure reliable real-time data synchronization and efficient alert processing.

SKILLS

- Languages:** C++, Python, Java, JavaScript, TypeScript, SQL
- Backend & APIs:** Node.js, Express.js, FastAPI, REST APIs
- Databases & Messaging:** MongoDB, MySQL, Firebase, Redis, RabbitMQ
- AI & Data:** Machine Learning, Scikit-learn, Pandas, NumPy, OpenAI APIs, Prompt Engineering
- Tools, Platforms:** Git, GitHub, Docker, Linux, Postman, Azure, OCI

ACHIEVEMENTS

- Solved **400+** Data Structures and Algorithms problems on LeetCode, including completion of **Striver's SDE Sheet**.
- Solved **200+** problems on Codeforces; completed **Striver's Competitive Programming Sheet** and participated in **10+** rated contests with a peak rating of **1500+**.

CERTIFICATIONS

- Microsoft Certified:** Azure Fundamentals (AZ-900)
- Microsoft Certified:** Azure AI Fundamentals (AI-900)
- Microsoft Certified:** Azure Data Fundamentals (DP-900)
- AWS Certified:** Cloud Practitioner (CLF-C02)
- Oracle Certified:** OCI Foundations Associate
- Oracle Certified:** OCI Generative AI Professional
- Postman Student Expert:** API Fundamentals

OPEN SOURCE CONTRIBUTIONS

- GirlScript Summer of Code (GSSoC)** *Remote*
Jul 2025 – Present
 - Open-source contributor under GSSoC; collaborated using GitHub workflows.
 - Contributed to the **LLVM MLIR** project by fixing a compiler crash in `shape.shape_of` during the `-inline` pass.
 - Authored a patch resolving an **mlir-opt crash**, closing reported issues ([#177840](#) / [#178839](#)).
